Joy Ride

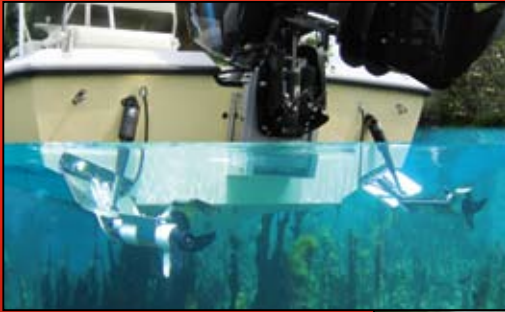

for Lenco Propulsion / Trolling Systems

- ▶ 360° steering with infinitely variable speed control
- ▶ Cruise control
- ▶ Built-in system check and battery meter
- ▶ Motor position switch with indicator
- ▶ L.E.D. tactile keypad with a built-in motor retractor feature
- ▶ Ambient light sensor
- ▶ IP68 waterproof rating (3 feet submersible)

LEADING THE WAY IN

INNOVATION

Building reliable, easy to use marine products is our passion... so you can just have fun on the water.

Joy Ride

for Lenco Propulsion / Trolling Systems

Available for primary propulsion and trolling applications in 24- and 36-Volt

- Electro-polished stainless steel construction on all Lenco propulsion systems for the ultimate in strength and durability
- Works with all Lenco digital propulsion and trolling systems
- Multi-step lower unit coating process includes 99% pure Alumiplate coating under zinc-free epoxy powder primer.
- TGIC Polyester topcoat protects against dings and scratches
- Sacrificial anodes for the ultimate galvanic corrosion protection
- 3 year limited warranty on motors through MotorGuide service centers
- Waterproof L.E.D. tactile keypad with built-in motor retractor feature
- Ambient light sensor adjusts L.E.D. brightness for optimum viewing in all light conditions
- Cruise control locks in any speed and direction at the touch of a button
- Battery voltage instantly displayed on multi-colored L.E.D. indicator
- Fully protected solid state electronic controls
