

## Troll'n Tab Kits

**We make the best boats better!™**

Catch more fish than you ever did before. Silently go more places than you ever thought possible. Tournament pro's and professional guides have been using Troll'n Tabs to consistently catch more fish for years.

Total control, the most power, snag-free decks and rock solid reliability have made Lenco partners in countless successful fishing trips. Lenco's commitment to quality and cutting-edge innovation combined with thousands of on-water testing hours have made ours the trolling motor system of choice.

Lenco Troll'n Tabs are full-function trim tabs underway that become powerful trolling motors in just 5 seconds at the touch of a button.

- Thrust steering allows 360° in length turning
- Immediate feedback for accurate boat positioning
- Models available for boats up to 30' (9.14 m) in length
- Vibration-free rubber padded motor mounts

**Each kit is pre-assembled and contains:**

- 12-volt Extreme Duty 4 1/4" (10.8 cm) stroke actuator (1) with 6-foot leads and Deutsch connectors
- Electro-polished stainless steel trim tab blade (1)
- Electro-polished stainless steel anti-cavitation plate (1)
- 24-Volt/2-HP Cool Wound™ salt water digital trolling motor (1)
- Cool Wound™ motor available in your choice of 24-Volt/2HP or 36-Volt/3HP (1)
- Self-contained, sealed keypad & control box with waterproof Deutsch connectors
- Zinc Anode
- All stainless mounting hardware

**Choose one of 4 switch/steering options:**

- 1) The Lenco Joy Ride with the Lenco Indicator Tactile Switch
- 2) The Lenco Micro Ride with the Lenco Standard Tactile Switch
- 3) Wireless remote with reverse with the Lenco Standard Tactile Switch
- 4) Foot pedal with the Lenco Standard Tactile Switch

**JoyRide**

- 360° steering with infinitely variable speed control
- Cruise control
- Built-in system check and battery meter
- Motor position switch with indicator
- L.E.D. tactile keypad with a built-in motor retractor feature
- Ambient light sensor adjusts L.E.D. brightness for optimum viewing in all light conditions
- IP68 waterproof rating (3 feet submersible)
- Waterproof "Plug & Play" Deutsch connections

**With**

**L.E.D. Indicator Switches have all the features of the Standard Tactile Switch on page 2 plus these:**

- 2 High-intensity L.E.D. Indicator displays show the exact position of your trim tabs at all times
- Photo Eye for optimum viewing in all light conditions
- Backlit Keypad for optimum viewing at night
- Self-Check feature at power-up

**Joy Ride with Indicator Tactile Switch (123SC)**

Actuator extension harnesses with Deutsch connectors **sold separately** in lengths of 7', 14', 20', 26' and 32'

Instant response electric actuators are fully submersible, maintenance-free and sealed for life

High-impact, ultraviolet resistant nylon 66, 50% glass fiber reinforced thermoplastic housing

## Standard Mount 9" x 12"

Adjustable mounting holes

NEW ultra-pure aluminum coating

Cool Wound™ digital motors, completely sealed, self-contained electronics module protected from heat, moisture, corrosion and shock

Motor self-regulates amp draw and heat dissipation resulting in a cooler, more efficient running motor

## Efficient Cool Wound™ salt water digital motors, 24-volt/2HP or 36-volt/3HP

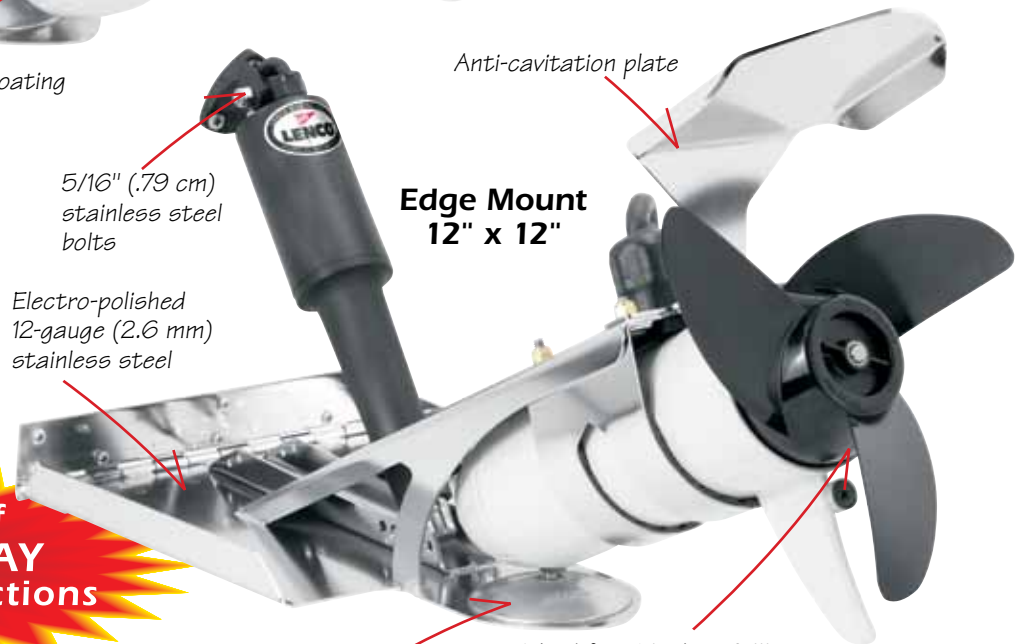

Electro-polished solid 316 stainless steel billet end for extreme-duty and racing applications

5/16" (.79 cm) stainless steel bolts

Electro-polished 12-gauge (2.6 mm) stainless steel

## Edge Mount 12" x 12"

Anti-cavitation plate

Zinc anode

Weed-free Machete® III prop with NEW tapered hub

**Waterproof PLUG & PLAY Deutsch Connections**

### Micro Ride System

- 360° joy stick steering with infinitely variable speed control
- Fully waterproof

### With

### Standard Tactile Switch

- Built-in Retractor feature returns tabs to a fully retracted position when power or tach signal is removed
- Solid state electronics
- Plug & Play switch wiring harness connectors
- Low profile design
- Self-contained, sealed keypad & control box with waterproof connectors
- Simple, quick installation
- Includes 36" power pigtail for control box
- Fade/smudge-proof, laser engraved graphics

**Micro Ride with Standard Tactile Switch (124SSR)**
