A technical drawing of a mechanical assembly, possibly a valve actuator, shown in a side profile. The drawing includes several dimension lines and labels. On the left, a vertical dimension line indicates a height of 13.5 inches (34.29 cm) for a 9-inch (22.86 cm) tab length. Below that, another vertical dimension line indicates a height of 11 inches (27.94 cm) for a 12-inch (30.48 cm) tab length. At the bottom, a horizontal dimension line indicates a total width of 12 inches (30.48 cm). Two specific dimensions are also shown: 3/8 inch (.95 cm) and 3/4 inch (1.9 cm). The drawing shows a cylindrical component with a handle-like structure extending from it, and a base with a tab. A dashed line indicates the 12-inch width.
